COSTA NOVA ⋒∰₥ Portugal

INTRODUCTION

Welcome to our new format downloads which are aimed to provide focused and inspirational information on each main brand and functional areas such as Afternoon Tea etc.

Please visit our website regularly to explore the series of downloads as we build them.

Each download will provide inspirational food images, the range of products for each brand and functional area, along with information on whether we carry an item as Core Stock (which means we will usually have a good level in stock at all times). Core Stock items will be identified by a

alongside each item.

If items are identified as a **Special Order** with a \square then, even for samples, we will need to place an order with the supplier. This usually applies to hand-made products or where items are available in a range of glazes.

We hope you will find our new way of providing 'catalogue' information more useful and will help provide some inspiration to enable you to make the best choice.

We are always available to provide you with in-person help, via our friendly Customer Services team or at our London Showroom.

Eco-Gres® is a registered trademark of Grestel. Products under this label are guaranteed to be made of non-hazardous recycled materials, derived from ceramic

SUSTAINABLE CERAMICS

- Our stoneware products are eco-friendly, reusable and recyclable;
- · The use of local natural resources minimizes our ecological footprint;
- Single-fired production that saves energy and reduces emissions into the atmosphere;
- Products made with a high % of recycled materials (clays and glazes), decreasing the use of capital, energy, and natural resources;
- Special projects such as ECO-GRÉS[®] (collections âmbar, Lagoa Eco Gres and Plano) highlight the constant focus on the development of products that are eco-friendly.

SUSTAINABLE INDUSTRY

- Industrial facilities that are environmentally-friendly;
- Efficient and innovative energy sources;
- Renewable energy (photovoltaic);
- · Reused heat from the kilns to other equipment;
- · Advanced water treatment and reduction of water consumption practices;
- Waste management policies and recycling procedures;
- Sustainable packaging: all of our boxes are made from FCS-certified cardboard boxes (75% recycled cardboard), closed with recycled paper tape. They are reusable and recyclable. Our gift boxes are made from non-bleached recycled cardboard or manufactured from pine wood by Portuguese artisans. They are 100%plastic-free and can be reused for other purposes. In our journey to find new and sustainable alternatives to plastic filling we recently developed a new sub product, called Ecocard. The Ecocard comes from internal cardboard waste that we crushed and used to fill ourboxes, instead of plastic-based materials.
- New synergies with other entities ceramics surplus are now considered by-products, and they are reintroduced into the production process.

SOCIAL RESPONSIBILITY

Producing ceramics in a socially responsible environment is a vital element to COSTA NOVA:

- Our 740 employees are our greatest assets;
- We make it our mission to commit to ethical business practices and high standards for human rights;
- · Building social good is in the foundation of our business (iob creation, philanthropy programs devoted to increase the well-being of the surrounding communities, gender diversity, equality and social inclusion practices);
- We promote and encourage environmental-friendly practices amongst all employees and suppliers.
