## PREMIUM TABLEWARE PORCELAIN

### INTRODUCTION

Welcome to our new format downloads which are aimed to provide focused and inspirational information on each main brand and functional areas such as Afternoon Tea etc.

Please visit our website regularly to explore the series of downloads as we build them.

Each download will provide inspirational food images, the range of products for each brand and functional area, along with information on whether we carry an item as **Core Stock** (which means we will usually have a good level in stock at all times). **Core Stock** items will be identified by a  alongside each item.

If items are identified as a **Special Order** with a  then, even for samples, we will need to place an order with the supplier. This usually applies to hand-made products or where items are available in a range of glazes.

We hope you will find our new way of providing 'catalogue' information more useful and will help provide some inspiration to enable you to make the best choice.

We are always available to provide you with in-person help, via our friendly Customer Services team or at our London Showroom.

### DIBBERN

The principle originally established by Bauhaus – that form and function are one – remains the governing rule for all aspects of Dibbern design. Tableware is the stage on which food is presented. As such, Dibbern believes in understated design. Their products hold a traditional and classic beauty; timeless designs which avoid the short-lived nature of 'trendy' products.

We love Dibbern because they are modern classics. Whether you choose their Porcelain or Fone Bone China, there is a quality in both form and function that makes the timeless. This is a brand appreciated by those with the most discerning taste because it is the radiance of the Bone China that you notice, not any gimmicky design.

Their products are the gold standard for Tea/Coffee Service as well as Restaurant tableware. Whether you choose white, their patterned ranges, or bespoke decoration, you can be sure that Dibbern will enhance any style of food presentation.

# Black Forest

Inspired by nature, modern and individually staged. Various black silhouettes of trees branch out tenderly over cups and plates, seem to be natural and abstract at the same time. The trunk continues over the rims of the cups and develops to a graphic element..
