COSTA NOVA

Portugal

This brand is very special to us. It was one of the first brands we sold as G&G and we chose it because it has a dedication to quality and design that is very special. Produced in Portugal, the brand is a major employer in its rural area and has worked hard on its sustainable ethos, creating a unique ceramic using recycled materials.

They are constantly working on new products to offer the Hospitality sector inspiration and functionality combined with durability and affordability.

They say "The brand produces innovative and sustainable stoneware, made from the best natural resources in Portugal. We embrace "handmade" and preserve our European heritage in the manufacture of our stoneware collections, bringing to the table and to the home unique and elegant pieces that suit perfectly in today's way of living and are able to last for generations. Nowadays, carrying Portugal's name and heritage all over the world COSTA NOVA is present across the 5 continents, in prestigious department Hotels and Restaurants."

AFFORDABLE LUXURY STONEWARE

CUSTOM DECORATION

BESPOKE CREATIONS

Personalising tableware with your logo is not just about aesthetics; it's a strategic decision with multifaceted benefits. It reinforces your brand identity, contributes to your marketing efforts, enhances the overall dining experience, and helps establish a unique and memorable presence in a competitive hospitality industry.

CRAFTING YOUR PERSONALISED TABLEWARE: A STEP-BY-STEP GUIDE

In the following pages, explore a range of collections and items designed for swift personalization. While these options offer a faster route to customization*.

1. Select your favourite collection.
2. Select your assortment / colours.
3. Submit your logo. Logos must be submitted in vector format (PDF, EPS or AI).

THE PROCESS IN DETAIL:

Lead Times

Production: 30 days from when order acknowledgment is received from Costa Nova.
USA freight lead times: 3-4 weeks via container; air freight by request at customer expense (2 weeks).
RoW freight lead times: depending on distance.**

Minimum Orders Requirements

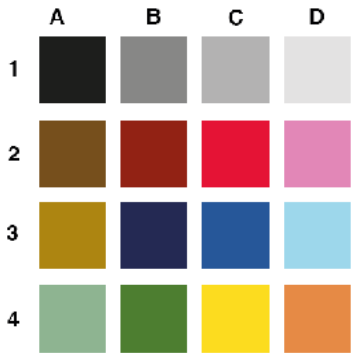

Initial Order: 288 pieces (mixed)***
Reorders: 144 pieces (mixed)***

Other Relevant Information

Items should be ordered in full case quantities.
Lead time can be longer if no open stock is available for logo application.
All custom orders are subject to a 10% overage or shortage based on yields.

STANDARD COLORS & COLLECTIONS

We've established 16 standard colours and 6 customizable collections to streamline the logo placement process.
By selecting these colours, we ensure colour performance and durability.

*For information on customizing other product lines, please reach out to our commercial department.
**Specific time frames for shipping and delivery will be discussed and agreed upon during the negotiation process between the parties.
***These quantities are standardized. For variations in quantity, kindly reach out to your sales representative or market manager for personalized assistance.

AFFORDABLE LUXURY STONEWARE

SUSTAINABLE CERAMICS

- Our stoneware products are eco-friendly, reusable and recyclable;
- The use of local natural resources minimizes our ecological footprint;
- Single-fired production that saves energy and reduces emissions into the atmosphere;
- Products made with a high % of recycled materials (clays and glazes), decreasing the use of capital, energy, and natural resources;
- Special projects such as ECO-GRÉS® (collections âmbar, Lagoa Eco Gres and Plano) highlight the constant focus on the development of products that are eco-friendly.

SUSTAINABLE INDUSTRY

- Industrial facilities that are environmentally-friendly;
- Efficient and innovative energy sources;
- Renewable energy (photovoltaic);
- Reused heat from the kilns to other equipment;
- Advanced water treatment and reduction of water consumption practices;
- Waste management policies and recycling procedures;
- Sustainable packaging: all of our boxes are made from FCS-certified cardboard boxes (75% recycled

cardboard), closed with recycled paper tape. They are reusable and recyclable. Our gift boxes are made from non-bleached recycled cardboard or manufactured from pine wood by Portuguese artisans. They are 100% plastic-free and can be reused for other purposes. In our journey to find new and sustainable alternatives to plastic filling we recently developed a new sub product, called Ecocard. The Ecocard comes from internal cardboard waste that we crushed and used to fill ourboxes, instead of plastic-based materials.

- New synergies with other entities – ceramics surplus are now considered by-products, and they are reintroduced into the production process.

SOCIAL RESPONSIBILITY

Producing ceramics in a socially responsible environment is a vital element to COSTA NOVA:

- Our 740 employees are our greatest assets;
- We make it our mission to commit to ethical business practices and high standards for human rights;
- Building social good is in the foundation of our business (job creation, philanthropy programs devoted to increase the well-being of the surrounding communities,gender diversity, equality and social inclusion practices);
- We promote and encourage environmental-friendly practices amongst all employees and suppliers.

PREMIUM STONEWARE

Les Guimards
Grès de Saint-Armand-en-Puisaye - France

Brother and sister team, Christophe and Nathalie Hurtault, represent the true heritage of French stoneware. From their family workshop which was founded by their parents in 1976, in the little hamlet of Saint-Armand-en-Puisaye, they carefully design and craft tableware using the grey clay extracted from their own quarry.

This is without doubt a labour of love from Christophe and Nathalie, seemingly from a bygone age and yet entirely on-trend in its design and execution of glazing with just the right amount of exposed stoneware.

The timeless pieces seem to fit so many styles of cuisine that we revisit their collections every year to make sure we have not forgotten something that is so right for today's trends.

There are some brands that do not need to follow fashion; Les Guimards is certainly one of those brands.

PREMIUM STONEWARE

Studio Raw was born out of a desire to offer Chefs and Restaurateurs tableware that helps to create unique and memorable food experiences. The studio is led by master craftsman and Ceramic Technician, Martin Blommaert who will help create unique signature pieces as well as offering some beautiful designs that will whet your appetite to be even more creative.

In presenting this collection, we have selected the pieces which we feel offer really innovative items without going to the lengths of creating your very own pieces.

FIGGJO

Figgjo is amazingly still a family-owned business, producing in a rural area near Stavanger which is rich in natural beauty and also provides a committed and loyal workforce that spans generations who have worked for this same company.

We have long been avid fans of Figgjo, for it's integrity in manufacture, their stunning designs and how it has moved with the times to provide Hospitality products which really suit the market.

From its clean-lined Base range to its trendy Buffet items, we can provide the best bespoke decoration offering; including design through to manufacture on as few as 48 pieces on dinnerware and teaware; to 6 pieces for Buffet items.

Not only is Figgjo a manufacturer who delivers on all levels, their sustainable credentials just keep getting better.

SUSTAINABILITY

For a number of years, G&G has been seeking out manufacturers, producers and studios who actually make an effort to reduce their impact on the environment. But more than this; we want them to share the values that we have in terms of business ethics.

Their MD says "We recently installed 994 solar panels on the factory roof, with an annual production of 397.6 kWp. This will reduce our CO2 emissions with 167,926 kg per year. We also found a way to use the excess heat from the production to heat up the offices in the administration building, so we don't have to use any extra energy here.

- Figgjo - An area encompassing mountains, glaciers and deep coastal fjords. The salmon river which runs through the production facility was the beginning of the porcelain factory, known all over the world today. Still family-owned, the original business was started in 1941 and has employed generations from the same families in the locality.
- All Figgjo products are 100% environmentally friendly, contain no environmental harmful materials and do not need to be sorted or disposed as hazardous waste.

- Figgjos porcelain is tested for lead, cadmium and barium release in accordance with the laws and regulations in the EU and Norway. Our products contain no substances hazardous to health or the environment. This applies to both glaze and colours.
- Process water is cleaned according to public requirements and is being analysed 6 times per year under public supervision. Figgjo has zero emission to the external environment.
- Dust and flushing water from the glaze compartment is cleaned and the glaze is recycled back to production again.
- Production uses natural raw materials, and they recycle production mass throughout the process. Fired products which do not comply with our quality requirements are down-cycled as a filler for construction work, road construction etc.

PREMIUM TABLEWARE BONE CHINA

NARUMI

Narumi Bone China was the very first range we selected for G&G Goodfellows. The original factory was built in 1938 by Nagoya Seito, and came under Narumi ownership in 1946, since when it has been producing fine Bone China and started exporting in 1965. Its long history in the manufacture of tableware has taken the company through many changes in style and demands. It opened its Indonesia factory in 2010 to service growing needs from its loyal customers.

We have been a partner of Narumi's for the past 13 years and have been astounded by its dedication to high quality production and bespoke decoration. We have commissioned bespoke designs for some of the country's 5* Hotels and Michelin * restaurants, who recognize Narumi's trademark precision at in-glaze decoration as well as its durability in high-volume environments.

Narumi's extensive product range covers dinnerware, tea service and buffet areas. Hotels can be confident that the durability of Narumi's Bone China is exceptional, whether as Room Amenities, Afternoon Tea items, Dinnerware or Buffet.

If you are looking for a high quality core china, then Narumi is a great choice.

For the last few years, we have been working with Narumi to create a number of 'Chef Plates' that augment their standard ranges and capitalize on Narumi's technical ability to produce a matt and shiny surface on the same item. This ability to add texture to plates has made Narumi a favourite with our chefs in the UK, starting as we did with the Esprit range in 2012.

SUSTAINABILITY

After extensive research Narumi has revised its manufacturing method to save energy by reducing the number of firings for a significant percentage of its products, without harming the quality.

Other initiatives to reduce Co² emissions include diverting heat from the kilns to the drying room.

- Approximately 9% of the raw materials from manufacturing waste and defective products are ground down to be recycled into new products. Research is ongoing to explore ways to increase the amount of recycled materials.
- Since 2012 Narumi has donated part of its profits from the sale of children's tableware, to Florence, a NPO which aims to help create "a society where everyone embraces their children, where people can take on any challenge while raising their children, and where families of all kinds are full of smile". In addition to donations, Narumi support Florence by providing tableware for children at the charity's facilities.

CUSTOM DECORATION

NARUMI offers a range of customized solutions to produce outstanding food presentation. As you consider with whom you should partner, please consider these advantages of NARUMI's customization:

- Long-standing trust from the world ' s leading hotels and restaurants
- A range of available customization options (from a one-point logo to detailed artwork)
- In-house designers who can create designs based on customers' requests and interior images
- Expertise in realizing complex and delicate design on actual products

PREMIUM TABLEWARE BONE CHINA

CUSTOM-MADE SOLUTIONS

After receiving design requests, NARUMI will provide a Design Sketch on paper or jpeg image.

If multiple colours are to be used for the design, the Design Sketch (on paper) will be sent to check the colour tone style in order to avoid mistakes.

Please note that the colour might differ depending on the PC/Laptop/Copier.

After the design is approved by the customers, the Sticker sample (Copy Paste sample) can be prepared to check the design position.

The colours of the Sticker samples are NOT the same as actual firing sample. However, it's helpful to catch the entire image for the customers.

We recommend you follow this step especially for complex designs and in case there are multiple design proposals.

(This process is an option, and can be omitted for simple designs.)

After the order confirmation with approval of the Design /Sticker samples, the Fired samples will be developed, and they will be sent for final approval of products.

The colours of the Fired sample will be based on the design drawing, not Sticker sample, so we need the colour confirmation by Paper sketch in Step 1 or 2.

The customer must sign off acceptance of the Fired sample and any amendments agreed before production can begin.

A sign-off document will be retained by G&G, along with the Fired final sample.

The customer must accept responsibility and pay for the order before production can commence.

Once production has commenced no adjustment can be made to the design.

STYLE 

Stylepoint has been part of our collection for many years, with their in-house brand Studio Raw, which is an incredibly innovative design-and-make studio, allowing chefs and restaurateurs to create their own unique ceramic products. Using Augmented Reality, designs can be visualised in your own restaurant before you even commit to production, through its revolutionary configurator software.

This allows you to have a degree of certainty about your design, without having to wait for individual samples to arrive.

The Stylepoint collection also includes other ranges which we have selected specifically to fit themes and concept niches.

TABLE SERVICE

PREMIUM TABLEWARE

Moments Collection

Indoor/outdoor lamp available in 6 different illuminated heads, available in many earthly colours and with the ability to light-up warm white in 2700 Kelvin.

Made of deep-brushed anodizing or mirror-polished powder coating aluminum, no rusting, no oxidizing, no decolourising, high UV-protection, rainproof and anti-glare.

TABLE LAMPS

Demoiselle Small Collection

Indoor/outdoor lamp available in a short version with 6 illuminated heads and with the ability to light-up warm white in both 2300 Kelvin and 2700 Kelvin. An optional battery slot guarantees only one recharge a week.

Made of deep-brushed anodizing or mirror-polished powder coating aluminum, no rusting, no oxidizing, no decolourising, high UV-protection, rainproof and anti-glare.

TABLE LAMPS

Poldina

zafferano

Cordless, rechargeable, battery table lamp. A touch control on the top of the lamp head allows you to switch the light on, adjust its intensity and select its color temperature. And thanks to its high IP rating, the lamp can also be used outdoors (except for the models with a galvanised finish that are not recommended for continuous outdoor use). An electronic control system monitors and indicates the remaining battery power to ensure recharging is optimized and always performed correctly. The lamp comes with a contact charging base. Battery charger not included. The lamp can be customized with a ceramic cover that can be purchased separately.

TABLE LAMPS

Pina Lamp

zafferano

Cordless, rechargeable, battery table lamp. A touch control on the base allows you to switch the light on, adjust its intensity and select its color temperature. And thanks to its high IP rating, the lamp can also be used outdoors (except for models with a metallic-leaf finish which are recommended for continuous outdoor use). An electronic control system monitors and indicates the remaining battery power to ensure recharging is optimized and always performed correctly. The lamp comes with a contact charging base. USB charger included. The lamp can be customized with a floor stand or a ceramic tray that can be purchased separately.

Handwashing:

- Use warm to hot water, neutral soap and a soft sponge or cloth
- To maintain or recover the original shine and remove any spots caused by improper washing, use a soft cloth with a few drops of lemon juice or ethyl alcohol
- Be especially careful with knife blades. Due to their high cutting power, they're more susceptible to oxidation and should be dried immediately after washing.
- After each use, remove food residues in order to avoid prolonged contact with the cutlery.

Machine washing:

- Avoid abrasive soaps and detergents
- Place all the cutlery in the silverware basket in the washing machine with the handles facing down and separate knives from others
- We highly recommend that after each machine cycle all cutlery is taken out of the machine and immediately dried with a soft cloth
- Keep away from other metallic objects during the washing cycle
- To maintain or recover the original shine and remove any spots caused by improper washing, use a soft cloth with a few drops of lemon juice or ethyl alcohol

Finesse

The Finesse collection glasses have a delicate stem that flows smoothly into a chalice with fine curves, which gives them a luxurious appearance, and the glasses really come into their own when used as part of a chic table setting. The glasses are made of Tritan® Crystal glass of excellent quality and offer optimum protection against breakages and scratches.

Sensa

Sensa takes the complexity out of modern wine enjoyment: With only five glass shapes all wine styles can be covered. Thereby, it does not matter whether you serve red wine, white wine or rosé. Which glass you choose, is only decided by the wine's aroma – and not by its colour. The modern and filigree series, which is made of Tritan® crystal glass in the Bavarian Forest, represents following five aroma styles: Light & Fresh, Fruity & Delicate, Velvety & Sumptuous, Flavoursome & Spicy as well as Light & Fresh (Sparkling).

PROFESSIONAL WINE PRESERVATION SYSTEM

SIMPLY POUR, AERATE, FILTER AND PRESERVE YOUR BEST WINE

WiKeeps

Simply pour, aerate, filter and preserve your best wine bottles !
Our patents for Wine (still) and Champagne (sparkling) use cartridges of oenological gas a natural, neutral and inert gas.
For still wines, we have developed a unique formula – mix of Argon (79%) + CO2 (21%). This gas allows keeping the freshness of the wines (which are more and more “natural” and

thus naturally loaded in CO2, while supporting the oxygenation during the service.
Our cartridges are also compatible with Coravin-type wine by-the-glass systems.
For sparkling wines, we use a CO2 (80%) + N2 (Nitrogen) mix, which both traps the existing bubbles and prevents the oxidation of the wine.

ON THE BAR

Never before has the choice of Barware been so extensive or individualistic.

The personal tastes of Mixologists, Bar specialists and even Sommeliers, are diverse as the range of Cocktails, Beverages and Wines that are served.

We have decided to provide a condensed list of essential tools and equipment, along with some of our favourite cocktail glasses and tumblers.

Where a more personalised option is required, we will work with you direct to determine your signature style, and offer a more bespoke solution from our vast portfolio.

You will find everything in this section and in the Barware download which will be updated when new products are available.

AFTERNOON TEA

Afternoon Tea should be an event. It needs to feel like we have put on a show as it is often the setting for heart-warming celebrations as well as an extra-special treat.

It therefore needs all the props necessary to add that touch of magic that will entice the taste buds long before the first sip has been taken from the dainty china cup.

And whilst we have something for everyone, from the rustic to the elegant, we are firm believers that tea always tastes better from real bone china. Beware the imitators, or at least be aware that not all china is real, fine bone china.

In our selection, we have what we think is the best hotel-grade bone china on the market, for the price. The sensational Narumi collection is the epitome of understated elegance in immaculate white, but can be expertly decorated, in-glaze, to provide a unique and durable house style.

Set this with new or vintage silverware and you have the basis for a memorable occasion.

If you have more contemporary tastes, don't worry, we have not forgotten you. We can help you create any theme of Afternoon Tea style you wish to present.

You will find everything in this section and in the Afternoon Tea download which will be updated when new products are available.

FOR CANAPÉ SERVICE

Presenting food for gatherings has evolved hugely over the years.

From silver platters to slate boards, everything has been used at some point for concepts. As trends change and the power of instagrammable food continues to dominate there will always be a need for innovation in canapé service.

We offer an extensive range of solutions for every style and occasion but if you require something unique then please ask us, as we have the capabilities to design and make a totally bespoke creation.

ON THE COUNTER

We believe the serving of Buffet or Counter food to be an art.

We have created many different styles of service, not necessarily from bespoke products. We like to create tablescapes for buffets and counters with individual flair.

Whether you are looking for a bijou breakfast layout or a buffet fit for a banquet, our scaleable and modular offerings will be sure to fit your requirements.

Let us help you design and create a concept just for you.

Figgjo is the only porcelain manufacturer that we know which offers a bespoke design service on so few pieces. It allows almost any operator the possibility to have a buffet layout which is unique to them. For those who know Figgjo porcelain, they will know it is not only one of the most stylish but also probably the most durable porcelain ranges on the market.

For as few as 6 of the larger pieces, you can be one of the increasing number of operators taking advantage of this amazing possibility to have their own unique designer porcelain.

We are proud to be able to exclusively offer Figgjo to you. If you want to discuss how we can bring this to your table, please get in touch for details.

INTEGRATED BUFFET SYSTEM

LA TAVOLA WONDERBUFFET®

LA TAVOLA'S WONDERBUFFET® COLLECTION IS THE MOST COMPLETE OFFERING FOR THE MODERN HOTELIER.

La Tavola's products incorporate a keen awareness of ever-changing trends and design styles, whilst making sure to always deliver above operators' expectations in terms of functionality.

Warming Function

The main challenge to heat retention is making sure food retains its flavor and texture over time.

La Tavola's warming functions resolves this challenge, with specific solutions for different dishes, service styles and power sources available.

THE HUMIDITY PROBLEM

Different dishes require different levels of humidity to maintain their taste, freshness and texture for longer.

In fact, very few dishes need neither high humidity nor total absence of humidity.

IDENTIFY IT

La Tavola's heat preservation products provide the optimal solution for every type of food.

	Type of Food	Humidity Level Required
 High Humidity	BOILED RICE, STEAMED VEGETABLES AND FISH, ETC	Warm-holding, ideal for high-humidity dishes (Bain Marie)
 Limited Humidity	STEWED MEAT, FISH, VEGETABLES WITH ANY TYPE OF SAUCE, ETC	A limited amount of humidity, obtained by the regulation of condensation levels
 No Humidity	ROASTED AND BOILED MEATS, FRIED FOOD, BAKED POTATOES, ETC	Ideal for dry food and dishes that would otherwise rapidly become soggy in a high-humidity unit

CHOOSE YOUR POWER SOURCE

Our product range is available in different power sources.

 Induction	 Induction Ready	 Electric	 Gel fuel
Free-standing induction burner to be used with induction-ready chafers and containers	Chafing dish or container with ferro-magnetic bottom, compatible with induction burner	Unit powered by electric plates	Units powered by solid gel burner

SIZE MATTERS

La Tavola's heat preservation products come in a variety of different gastronorm sizes.

RISERS

Elevation achieved with risers is the perfect choice to create a dynamic presentation in addition to improving the enjoyment of the buffet for your guests.

La Tavola offers a variety of options in terms of looks, materials, heights and combinations.

Cooling Function

Stylish cooling solutions powered by eutectic cooling plates. Ideal for fruit and salad, yoghurt, sushi, cold cuts, beverages and ice cream

Maximum versatility of use without electricity.

EUTECTIC REFRIGERATION

No ice, no electricity, no problems!

La Tavola's cold retention functions are powered by eutectic plates - high-tech ice packs which release a constant cooling capacity for up to 5 hours.

Eutectic cooling plate - when frozen, releases cold for up to 5 hours. Cold is transmitted to the adjacent surface by contact.

Chill it containers are a hygienic and safe way to maintain food at low temperature. Also suitable for displaying ice cream
