Salt & Pepper Mills

COLLECTION 2023

INTRODUCTION

Welcome to our new format downloads which are aimed to provide focused and inspirational information on each main brand and functional areas such as Afternoon Tea etc.

Please visit our website regularly to explore the series of downloads as we build them.

Each download will provide inspirational food images, the range of products for each brand and functional area, along with information on whether we carry an item as **Core Stock** (which means we will usually have a good level in stock at all times). **Core Stock** items will be identified by a • alongside each item.

If items are identified as a **Special Order** with a \square then, even for samples, we will need to place an order with the supplier. This usually applies to hand-made products or where items are available in a range of glazes.

We hope you will find our new way of providing 'catalogue' information more useful and will help provide some inspiration to enable you to make the best choice.

We are always available to provide you with in-person help, via our friendly Customer Services team or at our London Showroom.

SALT & PEPPER

It's the small details that make such a difference on the table. After all, when you sit down, there may be very little on the table, so table service items like for Salt & Pepper really matter. Not only from a functional point of view, but the presentation of Salt & Pepper says something about the restaurant's approach to every detail.

We always recommend that the quality of the grinder, if that's how you will present, is paramount because of the corrosive nature of Salt. Yes, you can buy cheaper but you will probably buy twice.

From a style perspective, the service needs to not only fit the decor should but be in keeping with the style of the food.

We offer a diverse range of styles to suit most cuisines, but if there is something in particular that you are looking for, and you don't see it here, then just contact our helpful staff at Sales@goodf.co.uk
