INTRODUCTION

Welcome to our new format downloads which are aimed to provide focused and inspirational information on each main brand and functional areas such as Afternoon Tea etc.

Please visit our website regularly to explore the series of downloads as we build them.

Each download will provide inspirational food images, the range of products for each brand and functional area, along with information on whether we carry an item as **Core Stock** (which means we will usually have a good level in stock at all times). **Core Stock** items will be identified by a ● alongside each item.

If items are identified as a **Special Order** with a □ then, even for samples, we will need to place an order with the supplier. This usually applies to hand-made products or where items are available in a range of glazes.

We hope you will find our new way of providing 'catalogue' information more useful and will help provide some inspiration to enable you to make the best choice.

We are always available to provide you with in-person help, via our friendly Customer Services team or at our London Showroom.

STYLEPOINT

Stylepoint has been part of our collection for many years, with their in-house brand Studio Raw, which is an incredibly innovative design-and-make studio, allowing chefs and restaurateurs to create their own unique ceramic products. Using Augmented Reality, designs can be visualised in your own restaurant before you even commit to production, through its revolutionary configurator software.

This allows you to have a degree of certainty about your design, without having to wait for individual samples to arrive.

The Stylepoint collection also includes other ranges which we have selected specifically to fit themes and concept niches.

In our bid to constantly bring you the best products from around the world, Stylepoint offers us and you, designs from ever-changing trend-led producers.
