Introduction

Welcome to our new format downloads which are aimed to provide focused and inspirational information on each main brand and functional areas such as Afternoon Tea etc.

Please visit our website regularly to explore the series of downloads as we build them.

Each download will provide inspirational food images, the range of products for each brand and functional area, along with information on whether we carry an item as Core Stock (which means we will usually have a good level in stock at all times). Core Stock items will be identified by a ● alongside each item.

If items are identified as a Special Order with a □ then, even for samples, we will need to place an order with the supplier. This usually applies to hand-made products or where items are available in a range of glazes.

We hope you will find our new way of providing 'catalogue' information more useful and will help provide some inspiration to enable you to make the best choice.

We are always available to provide you with in-person help, via our friendly Customer Services team or at our London Showroom.

Artilugis

Artilugis was born from a desire to bring state-of-the-art digital modelling techniques into the world of artisanal ceramics.

A Barcelona-based ceramics studio at the forefront of innovative tableware design, Artilugis explores the intersection of tradition and modernity to create a singular aesthetic that elevates the dining experience. Each piece merges timeless elegance with contemporary appeal, bringing a distinctive presence to the table.

Artilugis recognises that excellence in high-end cuisine is not solely about taste—it is equally about presentation. Its creations are more than tableware; they are a medium through which culinary artists can express their craft, engaging diners visually, texturally, and experientially.

The studio's approach extends beyond the creation of functional tableware. Artilugis seeks to inspire professional kitchens around the world, providing chefs with pieces that act as canvases for culinary artistry. Each creation is designed to be as unique and exceptional as the dishes it presents.

At the heart of Artilugis is the challenge of harnessing the precision, versatility, and possibilities of digital tools to bring unprecedented forms and designs to life within the realm of ceramic tableware.
